See below for reference from city legal. Maybe delegate to MCU reps at the EOC. Figured I'd share since it may impact some charge activity later.

Subject: RE: West Region FAST FACT - Windsor

- RCMP received in Ottawa but originated in Windsor. An anonymous call from a concerned citizen who claims to have seen a post on Facebook stating there is an explosive device beyond the police blockade between Huron Church and College which is set to go off between 2300 and midnight and show everyone what a real veteran would do.
- RCMP received a second anonymous from a caller from Barrie, seemed upset, wanting to know that the vets down there were taken care of.

•
Good Morning,

Information will be shared in point form to make sharing more efficient this am:

- Both sites of interest have seen a few vehicles depart overnight.
- Huron Church @ Tecumseh had no persons and 6 vehicles present at 0530. 25-30 vehicles are parked at the adjacent plaza with people sleeping in them.
- Huron Church @ College have 15 persons and 12 vehicles present.
- Operational briefing taking place at 0600.
- Barring any significant change to intelligence/observations, execution of plan is 0700.

Derek

Good morning Jason,

I will ensure that what you have suggested takes place. I will be requesting a meeting today with Windsor Command Staff, Chief Thib, Deputy Harkins and the Commissioner so that everyone is aware of what is required and provides the supports that are needed.

I am so grateful to you and your team and all their efforts. Everyone's hard work and professionalism is greatly appreciated. I am confident that your leadership, experience and skills will bring us to a successful resolution.

Dana

On Feb. 13, 2022 4:17 a.m., "Younan, Jason (OPP)" <Jason.Younan@opp.ca> wrote:

Good morning,

Some things to consider for strategy and planning:

- We can continue to take more area on Huron Church Road, however this only pushes demonstrators south, intersection by intersection. Strategically – we will need a plan. Our POU resources cannot stay in place for an undetermined amount of time. The City of Windsor, Windsor Police, etc. need to develop a strategy regarding how we can get traffic flow moving with timelines (regular WPS patrols up and down Huron Church, ability to arrest obstructionists immediately, etc.);
- A comprehensive traffic and sustainability plan in order to determine what assets need to be in place short, medium and long term from a uniform and POU perspective;
- Today – we need to ensure that we can transition POU over to uniform in AO #3 quickly through hardening Tecumseh @ Huron Church in the morning
 - I suggest utilizing large heavy equipment to block the entire Tecumseh @ Huron Church intersection;
 - Traffic plan that initiates normalizing commercial motor vehicle traffic along Huron Church Road again – several CMV's that can move and cycle through, so people get used to seeing CMV's again. People planning can determine what that looks like and when we can do that;

Just some thoughts. I am concerned that our POU friends, while generous and hard working – cannot sustain the pace and operational cycles like yesterday and if things flare up in other locations, we will lose assets and ultimately ground.

Thanks,
Jason

Good morning Jason,

I will ensure that what you have suggested takes place. I will be requesting a meeting today with Windsor Command Staff, Chief Thib, Deputy Harkins and the Commissioner so that everyone is aware of what is required and provides the supports that are needed.

I am so grateful to you and your team and all their efforts. Everyone's hard work and professionalism is greatly appreciated. I am confident that your leadership, experience and skills will bring us to a successful resolution.

Dana

Good morning,

Some things to consider for strategy and planning:

- We can continue to take more area on Huron Church Road, however this only pushes demonstrators south, intersection by intersection. Strategically – we will need a plan. Our POU resources cannot stay in place for an undetermined amount of time. The City of Windsor, Windsor Police, etc. need to develop a strategy regarding how we can get traffic flow moving with timelines (regular WPS patrols up and down Huron Church, ability to arrest an obstructionists immediately, etc.);
- A comprehensive traffic and sustainability plan in order to determine what assets need to be in place short, medium and long term from a uniform and POU perspective;
- Today – we need to ensure that we can transition POU over to uniform in AO #3 quickly through hardening Tecumseh @ Huron Church in the morning
 - I suggest utilizing large heavy equipment to block the entire Tecumseh @ Huron Church intersection;
 - Traffic plan that initiates normalizing commercial motor vehicle traffic along Huron Church Road again – several CMV's that can move and cycle through, so people get used to seeing CMV's again. People planning can determine what that looks like and when we can do that;

Just some thoughts. I am concerned that our POU friends, while generous and hard working – cannot sustain the pace and operational cycles like yesterday and if things flare up in other locations, we will lose assets and ultimately ground.

Thanks,
Jason

Subject: Barriers

Millen: needs additional barricades on either side 2 cruisers.

Manchester : Tighten up existing barriers and then additional on either side. 2 cruisers.

Melbourne: no barriers currently. This is a dead end and needs barriers in place at least 6 with 2 cruisers positioned.

At this time Tecumseh is not feasible to hard barrier and needs staffing with cruisers throughout night. This will be essential.

Thanks,
Jason

Subject: FW: CBSA Warehouse Space for POU Staging

Hi Jason

Below please find the details for the new POU staging area.
WPS will be delivering tables, chairs, fridges and logistics to this location for you and your team.
5 city buses will be there for your use as of 0700hrs tomorrow.
The location has a substantial amount of parking for your members' vehicles.

Jen – here are 2 photos from each end showing the warehouse space. The forklift and other items can be moved of course. The space is 37.72 feet wide by 124 feet long.

Access to washrooms (2 urinals, 2 bathrooms, 2 showers) are available for use in our employee-only section (no public access). I believe chairs may need to be rented because we won't have enough on hand already.

The parking lot is huge (it can fit hundreds of transport trucks at once). There is a door they can come and go through easily.

Please let me know if anyone wants to take a tour.

Dana

----- Forwarded message -----

From: "Boparai, Jasan (MTO)" <Jasan.Boparai@ontario.ca>
Date: Feb. 14, 2022 10:59 p.m.
Subject: Windsor Detroit Crossing: Temporary Concrete Barriers
To: "Earley, Dana (OPP)" <Dana.Earley@opp.ca>
Cc: "Gladdy, Geoffrey (MTO)" <Geoffrey.Gladdy@ontario.ca>, "Mahabir, Geddes (MTO)" <Geddes.Mahabir@ontario.ca>

CAUTION -- EXTERNAL E-MAIL - Do not click links or open attachments in unexpected emails.

Hi Dana: Nice talking to you today. I am summarizing our discussion below and have added a few additional details as we discussed. I have also including my colleagues from MTO's West Region – Geoff Gladdy, Director West Operations and Geddes Mahabir, Manager West Highway Operations.

- Upon request by the OPP, MTO has supplied Temporary Concrete Barriers (TCBs) through McLean Taylor Construction Limited. The TCBs are needed on either side of approximately 3.2 km roadway section leading to the Windsor-Detroit crossing.
 - Of the total 6.4 km (3.2 km x 2) TCB, approximately 600 TCB units (2.4 km) were supplied by the OPP through a local contractor and McLean Taylor crews were responsible for loading, transporting and placing the TCBs.
 - The remaining approximately 4 km TCB is being supplied by McLean Taylor and their sub-contractors.
 - MTO's parametric estimate for the work is \$1.3M (see details below).
 - It is understood that the TCBs may be required for 30 days to 60 days duration. This requirement may change as the overall situation continues to evolve. The OPP will inform MTO as soon as possible if there is a change in this requirement.
 - Once the OPP informs that the TCBs are not required anymore, MTO will ask McLean Taylor to remove the TCBs.
 - Since these TCBs are being installed along a municipal roadway, MTO has requested the OPP to advise how compensation to the contractor can be arranged.
 - Preliminary thought from the OPP is that compensation would be through federal funds available to support the emergency response to re-open the Windsor-Detroit crossing.
 - The OPP will review and provide more details related to compensation for the contractor in the next few days.
- Engineering Responsibility:

- Any temporary or permanent construction work that has the potential to impact public safety needs approval/ sign-off by a Professional Engineer who represents the Road Authority.
- The TCB installation is considered temporary construction work and it is understood that the City of Windsor would be the Road Authority.
- In order to ensure public safety and also to ensure that there is no adverse impact on other routine operations such as maintenance, snow clearance etc., it is essential that the Road Authority review and approve the placement of the TCB and also assume all responsibility related to the TCBs. For instance:
 - Ends of TCB runs may require to be flared or the installation of temporary energy attenuator terminals.
 - In order to not impede drainage, there may be need to provide drainage gaps in TCB runs or place TCBs such that catch basins are not covered.
 - Traffic signals of intersecting roadways where access is closed may require to be changed to permanent red for the intersecting roadway and permanent green for the main roadway.
 - Additional safety/ warning signs may be required at intersecting roadways where access is closed as well as along the main roadway where left-turn and right-turn is no longer permitted.
- If in the future there is a need to adjust the TCBs, MTO can ask McLean Taylor to do the same.

+++++

MTO's Parametric Estimate for 6.4 Km TCBs

- TCB 6,400m @ \$150 per m: \$960,000
- Sunday, Feb 13 work:
 - 4 trucks @ \$150 per hour for 20 hours: \$12,000
 - 8 workers @ \$120 per hour (double-time) for 20 hours: 19,200
 - Total: (4 trucks, 8 labour for 20 hours): \$31,200
- Total: \$991,200
- Total including 30% for contingencies, staff overtime etc.: \$1,288,560 say \$1,300,000.

+++++

Subject: AM/PM Towing Comber

Good Morning,

The owner of AM/PM Towing, along with his staff are currently being harassed and threatened in lieu of the events taking place at the border. He advised that he already has over 700 harassing emails, had to shut down 4 or his 5 phone lines, only keeping his police line operational. His website, Facebook page, google review are all being slandered. His business is taking a direct hit because he continued to work and assist us (the Police) with towing vehicles. His wife and family members names have been directly mentioned. Today he found nails and screws in his driveway. He already has Windsor Police involved with his Windsor location as he received bomb threats.

When he called today, he just wanted it reported, however I feel we should be making efforts to patrol and provide some deterrence when possible. Especially now that people have attended his home. There is no available video surveillance, no suspects. I have advised him to save everything and to call us immediately if anything else is to occur at his residence or business, as well as document all relevant information in the event this continues and needs to be investigated into further.

In the meantime, if you could please conduct patrols of his residence and business when possible he would greatly appreciate it. His residence is located at 4803 County Road 46, the business is just east of that, 6125 County Rd 46.

Thank you,

Carissa

Chief,

Quick update, HSD are following the vehicles and PLT have already engaged with them. Their intent is to travel to the Flying J truck stop the 268 mile marker of the 401 (West side of Cambridge almost in WR Wellington area). HSD units are following the group to this location. Our PCCL has been engaged with HSD. I have asked the PCCL Sergeant to provide an update when the group pulls in.

In addition we are making arrangements through our deployed members and HSD to send officers to intercept should they not stop as indicated.

Our plan will be to let them travel west and pull them into the Putnam Road MTO Inspection station. We are reaching out to MTO to have an inspector available to assist.

I will provide an update when able.

Good Evening ,

Please find the attached proposed messaging with a view to adopting portions to social media posts. This could also be sent out to all regions for messaging for all officers. The intent of the messaging is to be clear and precise to be best received by broader audiences. This would provide clear and concise messaging across the province as we move into the weekend and addresses the recent implications of the Federal Emergencies Act as well as the Provincial EMCPA and State of Emergency.

It has been reviewed by Natalie Viens of Strategic Communications.
Chief Parly of the Strategic Planning Committee is aware that this is being prepared for broader dissemination.

If all are in agreement we can move to have this formalized to send to regions or out through the POC.

For your consideration,

Giselle

Perfect, thanks

We are trying to sort out if you are deployed and you are staying in the area (not able to go home) do you get stand by time for the hours between your 12 hour shifts?

Can you collect OT and stand by time on the same day as well as your regular shift hours.

Hoping some of these things get sorted....

I read this:

If you are on call for 24 hours and did not get called out, you would be entitled to 8 hours pay (1/3)

If they get called in they get 1.5 per hour.

If they get called in while on scheduled vacation its 2.5 per hour

There is new DAR code for this and it should automatically populate:

Importance: High

Hello everyone

A new schedule code was activated this morning to show when a member is scheduled on Stand By. The new code is **SB2** which mirrors the DAR to WIN reporting codes when the Stand By pay rate is applied.

The code is now available in the Schedule Code list in CRM and MySchedule for use and will display on screen as:

SB2

This variation of blue/green is notably different in the schedule for quick awareness while staying in the same colour family for these types of 'rest' codes. When used, this code will not push to DAR, thus keeping the rest day on the member's schedule. Where a member is called into work, please update MySchedule with a working code and update the start and end time so that the schedule pushes to DAR. Do not use the Overtime Icon.

As always, it remains incumbent on the member to ensure that they are completing their DAR, at the proper pay rates.

Please share this email with your detachment/unit for their awareness.

Thanks

The Scheduling Team

Subject: Stand by time

Good Morning,

Hope all is well!

Can I ask both of you a favour?

Can you review all info below and provide a summary in layman's terms as to how we can clearly explain who/when stand by pay is awarded.

My intention is to create a consistent message that can be shared throughout the province.

Thanks

Dana

STAND -BY TIME

6.06.01

(a) Stand-by is a period of time during which, in accordance with administrative procedures established by the Commissioner, an employee is ordered to remain at his/her residence or other specified quarters, (as determined by the person authorizing the stand-by) from which the employee shall be ready to proceed to a work location immediately upon receipt of instructions.

(b) This Article shall not eliminate or prohibit the existing co-operative practice under which a member of the OPP provides advice to his/her supervisor as to his/her proposed whereabouts while off duty but there shall be no restriction on the free time of an employee that is not in accordance with this Collective Agreement.

(c) Where an employee is required to be on stand-by he/she is entitled to be paid at his/her hourly rate of salary for one-third (1/3) of his/her stand-by time, but where such stand-by time is less than the number of hours in the employee's scheduled working day, the employee is entitled to three (3) hours pay at the hourly rate.

(d) The minimum entitlement of four (4) hours pay pursuant to sub-section 6.02(a)(ii) and 6.02(a)(iii) shall not apply to an employee who was on stand-by when he/she was required to report for work, and a period of work for which pay is received at one and one-half (1 1/2) times the hourly rate under the provisions of sub-section 6.02(a)(ii) and 6.02(a)(iii) is not included in any stand-by period.

(e) The minimum entitlement of sixteen (16) hours pay pursuant to sub-section 6.02 (b) shall apply to an employee who was on stand-by when he/she was required to report for work, and a period of work for which pay is received at two

and one-half (2 1/2) times the hourly rate under the provision of sub-section 6.02 (b) is not included in any stand-by period.

Good evening,

Today, the Ottawa Police Services Board identified Ottawa Police Service (OPS) Deputy Chief Steve Bell as the Interim Chief of the Ottawa Police.

Through an integrated command structure, alongside the RCMP, the OPP will continue to support the OPS in response to the ongoing demonstrations in Ottawa.

Further to my February 11, 2022 memorandum, the ongoing OPP response to the activities in Ottawa and across the province, has identified the need for unprecedented resource deployments to adequately and effectively meet our provincial and detachment public safety responsibilities.

Additional resources are now being deployed. Effective immediately, all active uniform members must be prepared for deployment and/or detachment overtime work. Affected members will receive notification regarding requirements for stand-by time, additional shifts, or deployment.

Provisions for stand-by time, overtime, and other potential entitlements, along with appropriate DAR coding, will be provided with deployment joining instructions.

Thank you in advance for your ongoing support of this ever evolving major event.

Subject: RE: Stand by time

My suggestion:

No the OT/stand-by is not automatic. Think of every team in services working all of the Province and stuck out 100 nights + per year. No stand-by pay or OT.

There is a distinction in the policy that causes the stand-by pay:

“an employee is ordered to remain at his/her residence or other specified quarters,”

Have you ordered everyone to stay in their hotel rooms, ready for rapid deployment? If not you are just providing rooms and they can go out and hang out in the area. If you have then it would lean towards stand-by pay.

Superintendent Darling on the teleconference said members need to “stay in the County”, to the detachment commanders. This would be covered by the next section “as determined by the person authorizing the stand-by”. (Unless you didn’t live in the County you police in)

When this is done I have suggestion for these situations related to rapid deployments and communication.

Mike

Subject: OPP Member Operational Deployment

Good evening,

Today, the Ottawa Police Services Board identified Ottawa Police Service (OPS) Deputy Chief Steve Bell as the Interim Chief of the Ottawa Police.

Through an integrated command structure, alongside the RCMP, the OPP will continue to support the OPS in response to the ongoing demonstrations in Ottawa.

Further to my February 11, 2022 memorandum, the ongoing OPP response to the activities in Ottawa and across the province, has identified the need for unprecedented resource deployments to adequately and effectively meet our provincial and detachment public safety responsibilities.

Additional resources are now being deployed. Effective immediately, all active uniform members must be prepared for deployment and/or detachment overtime work. Affected members will receive notification regarding requirements for stand-by time, additional shifts, or deployment.

Provisions for stand-by time, overtime, and other potential entitlements, along with appropriate DAR coding, will be provided with deployment joining instructions.

Thank you in advance for your ongoing support of this ever evolving major event.

Thomas Carrique
Commissioner
Ontario Provincial Police

Subject: RE: Stand by time

My suggestion:

No the OT/stand-by is not automatic. Think of every team in services working all of the Province and stuck out 100 nights + per year. No stand-by pay or OT.

There is a distinction in the policy that causes the stand-by pay:

“an employee is ordered to remain at his/her residence or other specified quarters,”

Have you ordered everyone to stay in their hotel rooms, ready for rapid deployment? If not you are just providing rooms and they can go out and hang out in the area. If you have then it would lean towards stand-by pay.

Superintendent Darling on the teleconference said members need to “stay in the County”, to the detachment commanders. This would be covered by the next section “as determined by the person authorizing the stand-by”. (Unless you didn’t live in the County you police in)

When this is done I have suggestion for these situations related to rapid deployments and communication.

Mike

Subject: RE: Stand by time

Perfect, thanks

We are trying to sort out if you are deployed and you are staying in the area (not able to go home) do you get stand by time for the hours between your 12 hour shifts?

Can you collect OT and stand by time on the same day as well as your regular shift hours.

Hoping some of these things get sorted....

Cc: Sakellis, Tracy (OPP) <Tracy.Sakellis@opp.ca>

Subject: RE: Stand by time

I read this:

If you are on call for 24 hours and did not get called out, you would be entitled to 8 hours pay (1/3)

If they get called in they get 1.5 per hour.

If they get called in while on scheduled vacation its 2.5 per hour

There is new DAR code for this and it should automatically populate:

Importance: High

Hello everyone

A new schedule code was activated this morning to show when a member is scheduled on Stand By. The new code is **SB2** which mirrors the DAR to WIN reporting codes when the Stand By pay rate is applied.

The code is now available in the Schedule Code list in CRM and MySchedule for use and will display on screen as:

SB2

This variation of blue/green is notably different in the schedule for quick awareness while staying in the same colour family for these types of 'rest' codes. When used, this code will not push to DAR, thus keeping the rest day on the member's schedule. Where a member is called into work, please update MySchedule with a working code and update the start and end time so that the schedule pushes to DAR. Do not use the Overtime icon.

As always, it remains incumbent on the member to ensure that they are completing their DAR, at the proper pay rates.

Please share this email with your detachment/unit for their awareness.

Thanks

The Scheduling Team

Good Morning,

Hope all is well!

Can I ask both of you a favour?

Can you review all info below and provide a summary in layman's terms as to how we can clearly explain who/when stand by pay is awarded.

My intention is to create a consistent message that can be shared throughout the province.

Thanks

Dana

STAND -BY TIME

6.06.01

(a) Stand-by is a period of time during which, in accordance with administrative procedures established by the Commissioner, an employee is ordered to remain at his/her residence or other specified quarters, (as determined by the person authorizing the stand-by) from which the employee shall be ready to proceed to a work location immediately upon receipt of instructions.

(b) This Article shall not eliminate or prohibit the existing co-operative practice under which a member of the OPP provides advice to his/her supervisor as to his/her proposed whereabouts while off duty but there shall be no restriction on the free time of an employee that is not in accordance with this Collective Agreement.

(c) Where an employee is required to be on stand-by he/she is entitled to be paid at his/her hourly rate of salary for one-third (1/3) of his/her stand-by time, but where such stand-by time is less than the number of hours in the employee's scheduled working day, the employee is entitled to three (3) hours pay at the hourly rate.

(d) The minimum entitlement of four (4) hours pay pursuant to sub-section 6.02(a)(ii) and 6.02(a)(iii) shall not apply to an employee who was on stand-by when he/she was required to report for work, and a period of work for which pay is received at one and one-half (1 1/2) times the hourly rate under the provisions of sub-section 6.02(a)(ii) and 6.02(a)(iii) is not included in any stand-by period.

(e) The minimum entitlement of sixteen (16) hours pay pursuant to sub-section 6.02 (b) shall apply to an employee who was on stand-by when he/she was required to report for work, and a period of work for which pay is received at two and one-half (2 1/2) times the hourly rate under the provision of sub-section 6.02 (b) is not included in any stand-by period.

Chief,

Quick update, HSD are following the vehicles and [REDACTED] Their intent is to travel to the Flying J truck stop the 268 mile marker of the 401 (West side of Cambridge almost in WR Wellington area). HSD units are following the group to this location. Our PCCL has been engaged with HSD. I have asked the PCCL Sergeant to provide an update when the group pulls in.

In addition we are making arrangements through our deployed members and HSD to send officers to intercept should they not stop as indicated.

Our plan will be to let them travel west and pull them into the Putnam Road MTO Inspection station. We are reaching out to MTO to have an inspector available to assist.

I will provide an update when able.

Subject: RE: Additional RPAS Batteries and Charging Station

Hello Insp Younan,

I have reviewed the request.
I agree that the real time feed was important during the plan of action.
Can you advise why the team requires 8 batteries?
I will ensure the request is shared with Supt Alakas for his review.

Dana

Supt.,
Please see the message below from RPAS operators. The rationale makes sense to me and knowing that the CCT relied upon this asset for real-time situational awareness and on-ground appreciation, I support this request and trust you'll be able to action and approve. To miss a vital aspect of an operation that can substantiate a criminal offence or demonstrate appropriate use of force or provide intelligence to enhance officer and public safety because a trivial purchase of batteries would be potentially derelict.

For your consideration and approval.

Thanks,
Jason

Subject: Additional RPAS Batteries and Charging Station

Inspector Younan

This Email is in regards to purchasing new batteries and a charging station for the DJI Matrice 300 RTK (RPAS) unit currently being utilized at POU details and other ERT mandated calls. During the recent events in Windsor and Lambton Counties during the "Freedom Convoy" the unit was used extensively and found to be an integral part of the command and control on ground. The ability for not only units on ground but also the OPP Commissioned officers to view events real time is essential to officer safety and operations.

During the recent events on the 13th Feb in Windsor the unit was unable to maintain constant streaming and over watch due to the batteries dying and not charging quickly enough to have a constant supply.

The tether which is great for deploying straight up would have been ineffective for this event or future similar ones. The tether maintains a constant stream of power but it can't be moved to follow the crowds or to different locations.

Sometimes there are things blocking views (trees etc.) and we need to move the RPAS for a clear line of sight. It is great for static events such as Port Dover for constant streaming.

With the current situation and state of emergency declared we were hoping if another battery charging station and additional 8 batteries could be purchased to maintain constant flights and ensure there is no down time for the RPAS and live feed.

We in the RPAS unit appreciate anything you can do to assist.

Charging station- DJI M300 TB60 Battery Charging Station \$1160.00 Cdn
Batteries – DJI M300 TB60 Battery \$ 1088.00 per Battery x 8 = \$8704.00

All -
Putting everything in together in one place given high demand for info, copies, links, bilingual versions, etc... This is now all in the public domain, so can be shared with whomever might need it, in whatever format works best.

1. Order directing that a Proclamation be issued (PC Number: 2022-0106<<https://orders-in-council.canada.ca/attachment.php?attach=41560&lang=en>> – bilingual link). Certified bilingual PDF copy attached to this email (2022-0106.pdf).
2. Proclamation Declaring a Public Order Emergency – can be found in the Special Edition of the Canada Gazette, Part II, Vol 156:

Eng: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors20-eng.html>

FR: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors20-fra.html>

3. Emergency Measures Regulations (PC2022-107<<https://orders-in-council.canada.ca/attachment.php?attach=41561&lang=en>> – bilingual link, SOR/2022-0021) Note that PCO-OIC website includes only the Order ‘cover page’, while the Canada Gazette (Part II, Vol 156), has the full regulatory text.

Eng: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors21-eng.html>

Fr: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors21-fra.html>

Certified bilingual PDF copy also attached to this email.

4. Emergency Economic Measures Order (PC2022-108<<https://orders-in-council.canada.ca/attachment.php?attach=41562&lang=en%20>> and SOR/2022-0022) Note that PCO-OIC website include only the Order ‘cover page’, while the Canada Gazette (Part II, Vol 156), has the full regulatory text.

Eng: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors22-eng.html>

FR: <https://www.gazette.gc.ca/rp-pr/p2/2022/2022-02-15-x1/html/sor-dors22-fra.html>

Certified bilingual PDF copy also attached to this email.

That is the sum total of the Emergency Act instruments as I know it. With huge thanks to all the teams for their contributions to this effort. Have a good evening everyone!

CAUTION -- EXTERNAL E-MAIL - Do not click links or open attachments in unexpected emails.

Good morning,

At 0305 hours WPS E911 received a phone call with the following information:

REC'D CALL FROM [REDACTED] AT 0305HRS - MALE ON THE LINE SAYING THAT HE WANTED TO PROTEST HIS GOVERNMENT AND THAT HE WANTED THEM TO BOMB THE WARFARE LAND - I ADVISED HIM THAT HE WAS MAKING A THREAT ON A RECORDED LINE, AND HE REPEATED THE SAME INFO, NUMBER IS NEG IN VERSA -- INFO PROVIDED TO EOC AND MAJOR CRIMES NOTIFIED.

Sgt Ray Hamlin, PC Chad Rundle and Sgt. Bryan Hayes did some work up on it and contacted Albany City Police to gather some information. Male [REDACTED] has a previous 2008 Terrorist Threat Act conviction. Officers working on male background and history. Albany City Police requesting more formal process to gather further information through CPIC/email.

CPIC sent message requesting further information on Milner to Albany Police Department.

Officers did not request a well-being check at this time.

MCB not working and will be notified at 0700 hours at the EOC to continue the investigation pending information received via CPIC.

Report generated under WPS Case 2022-13464 for further information.

Thanks MM

Subject: RE: Additional RPAS Batteries and Charging Station

Supt.,

Eight batteries is an ideal capacity # for RPAS operators. This capacity is linked with the cold weather and wind that diminishes battery life at a faster pace than in normal conditions. The # eight permits enough time to charge and continuous flight time. The batteries take longer to charge, than actual flight time.

Thanks,
Jason

Supt.,

Please see the message below from RPAS operators. The rationale makes sense to me and knowing that the CCT relied upon this asset for real-time situational awareness and on-ground appreciation, I support this request and trust you'll be able to action and approve. To miss a vital aspect of an operation that can substantiate a criminal offence or demonstrate appropriate use of force or provide intelligence to enhance officer and public safety because a trivial purchase of batteries would be potentially derelict.

For your consideration and approval.

Thanks,
Jason

Subject: Additional RPAS Batteries and Charging Station

Inspector Younan

This Email is in regards to purchasing new batteries and a charging station for the DJI Matrice 300 RTK (RPAS) unit currently being utilized at POU details and other ERT mandated calls. During the recent events in Windsor and Lambton Counties during the "Freedom Convoy" the unit was used extensively and found to be an integral part of the command and control on ground. The ability for not only units on ground but also the OPP Commissioned officers to view events real time is essential to officer safety and operations.

During the recent events on the 13th Feb in Windsor the unit was unable to maintain constant streaming and over watch due to the batteries dying and not charging quickly enough to have a constant supply.

The tether which is great for deploying straight up would have been ineffective for this event or future similar ones. The tether maintains a constant stream of power but it can't be moved to follow the crowds or to different locations. Sometimes there are things blocking views (trees etc.) and we need to move the RPAS for a clear line of sight. It is great for static events such as Port Dover for constant streaming.

With the current situation and state of emergency declared we were hoping if another battery charging station and additional 8 batteries could be purchased to maintain constant flights and ensure there is no down time for the RPAS and live feed.

We in the RPAS unit appreciate anything you can do to assist.

Charging station- DJI M300 TB60 Battery Charging Station \$1160.00 Cdn
Batteries – DJI M300 TB60 Battery \$ 1088.00 per Battery x 8 = \$8704.00

Subject: RE: Additional RPAS Batteries and Charging Station

Supt.,
Eight batteries is an ideal capacity # for RPAS operators. This capacity is linked with the cold weather and wind that diminishes battery life at a faster pace than in normal conditions. The # eight permits enough time to charge and continuous flight time. The batteries take longer to charge, than actual flight time.

Thanks,
Jason

Hello Insp Younan,

I have reviewed the request.
I agree that the real time feed was important during the plan of action.
Can you advise why the team requires 8 batteries?
I will ensure the request is shared with Supt Alakas for his review.

Dana

Subject: OTU - Arrested Persons 13 Feb 2022

Good Morning,

Just wanted to give you an update on the arrests from 13 Feb 2022.

The snap set sheets officers were completing road side were mainly filled out by the arresting windsor officers, the ones that did the RTC. The carbon copies were not working the white copy had the info but it didnt carry through to the other 2 sheets unsure if that was the age of the sheets or the temperature outside. Most of the snap sets were stuffed into property bags roadside and then during processing at Windsor they were stapled to their booking forms and collected by major crimes Todd Pitterson of Windsor PS.

Our OTU officers have the arrested persons names on our own forms in our vehicles but due to the info not carrying through our trucks left most of the snaps with the property bags to give the Windsor folks some info for their arrest reports and to ID the arrested person to their property.

Drop off at Windsor HQ was simple. The Windsor Special Constable assisted with the offloads up to the cells 2 at a time. One of our trucks was off loading for nearly 6 hours due to the number of arrests all at once. We tried our best to get them offloaded to the one truck so that the other trucks could get back to the area. The truck that was at Windsor HQ ended up requiring a boost as it died in the sallyport area 2200 last night.

Feedback: as chaotic as things were during the arrests, property, persons and papers were completed. The Windsor HQ cell block was fantastic to deal with and tried their best to move the prisoners off our trucks, however with the sheer volume it definitely slowed things down. No ones fault, had to be done safely and accurately. The snapset were helpful to them with the hand offs from OTU to Windsor and provided them the arresting officers name for their reports.

I can provide a copy of our OTU daily prisoner log sheets if you require them.

Thank you,

Amanda Wilson

Evening,

I was just informed that the Military has cancelled their Tactical Armoured Patrol Vehicle (TAPV) training tonight and this weekend.
